***Please direct any and all questions to the City of St. Charles Building & Code Enforcement Division:
Monday (8 AM to 6 PM) Tuesday through Friday (8 AM to 4:30 PM) at 630.377.4406***

A building permit is required prior to any construction or alteration in your basement. The following are guidelines and comments for obtaining a building permit.

Application and Drawings Procedures:

- ▶ An application is to be filled out and submitted to the Building & Code Enforcement Division. The contractors names, addresses, phone numbers and, if required, their license numbers are to be filled out when submitting the application.
- ▶ Two (2) sets of drawings showing the construction of details for the finish, remodel, or alteration in your basement are to be submitted with the application.
- ▶ If there is any plumbing being done on your project the work may be done by the owner and occupant. Should anyone other than the owner and occupant do the plumbing, it must be done by an Illinois licensed plumber. The person or company is to provide a letter of intent, on their letterhead, indicating they are conducting the work for this project. Along with the letter of intent, please provide copies of their Illinois State Plumbing License and Illinois State Contractor License.
- ▶ Our goal is to complete the review of your building permit within 10 working days.

Application – Permit Fees:

⇒ A filing fee is to be paid at time of submission of application and plans.

A submittal fee of **\$125.00 (to be paid at time of submittal)**

Additional fees for your permit to be paid at the time the permit is approved and ready to be obtained.

Alteration is based upon estimated cost:

\$4,001 to \$24,000 at \$6.60 each/1,000

\$24,001 on at \$3 each 1,000

⇒ **Re-inspection fee.** During the construction of your project should you fail any of the required inspections there is a re-inspection charge. The fees are due prior to certificate of occupancy. The fee schedule is as follows;

- \$65.00 per Building & Code Enforcement Division re-inspection for all types of inspections during construction (excluding finals)
- \$85.00 per re-inspection for all residential final inspections.

⇒ **Temporary certificate of occupancies.** \$85.00 is due prior to issuance of a temporary certificate of occupancy for residential.

General Comments:

- * The Permit Conditions form and stamped "FIELD COPY" of the plans are to be on the job site.
- * A minimum of 24-hour notice is required when scheduling any inspection.
- * The gap between concrete foundation wall and concrete floor is required to be polyurethane caulked, per the radon requirements in finished areas.
- * Door into the furnace room with light switch on wall.
- * Electric outlet receptacles shall be installed a minimum 6-feet from every break (i.e. stairway, fireplace, door, etc...) then every 12-feet on center.
- * Fire-stop the top wall plate between wall and foundation and all chases with approved material.
- * HVAC to be installed per the 2003 International Mechanical Code, with local revisions.
- * Secure all HVAC duct dampers in the open position above all drywall ceilings.
- * Provide access for all electric boxes, plumbing cleanouts, and shut offs above ceiling.
- * Provide a lighting fixture within 4-feet of electrical panel and mechanical equipment.
- * GFI receptacles required within 3-feet from edge of bathroom sink.
- * Provide a minimum of R-5 insulation in all walls along foundation.
- * All basement bedrooms and/or finished rooms with a closet are to have a window or door to exterior that meets the egress requirements.
- * The bottom wall plate shall be all weather treated lumber.
- * The mechanical room shall have the required make up air for all fuel burning equipment.
- * Every basement shall have a minimum of one (1) approved escape egress window to the exterior. Sill height off basement floor shall be no greater than thirty-six (36") inches. Window wells shall meet the 2000 International Residential Code, Section R310.2.
- * Drywall the bottom of enclosed staircase.
- * Above ground DWV system shall be no less than Schedule 40 cell core PVC and shall be tested to top of stack or point of the connection into existing stack.
- * Lights in closets must be installed in compliance with the National Electrical Code, 2002 Edition, Section 410.8.
- * The clearance required for an electric panel with no obstructions is 36-inches clearance in the front and 30-inch side clearance.
- * In basements add a G.F.I. receptacle in all unfinished storage areas.
- * Smoke and CO detectors in an existing house are required to be up to current codes.
- * Smoke detectors shall be required in each sleeping room and shall be hardwired with battery back up.
- * CO (carbon monoxide) detectors shall be within 15-feet of each sleeping room.

Per the 2009 International Energy Conservation Code, Construction documents drawn to scale shall be of sufficient clarity to indicate the location, nature and extent of the work proposed, and show in sufficient detail pertinent data and features of the building, systems and equipment. Details shall include, but are not limited to as applicable.

- 1) Minimum insulation is R-13
- 2) Duct sealing (ducts, air handlers, filter boxes, and building cavities used, as ducts shall be sealed).
- 3) Lighting fixture schedule (50% min. of lamps permanently installed to be high-efficacy lamps) with wattage and control narrative.

Overtime Inspections:

The Building & Code Enforcement Division Manager or his designee may approve requests for overtime inspections for unique circumstances. The charge for an overtime inspection will be a separate charge and will be invoiced to the individual contractor or company who requested the overtime inspection.

Inspections - Clarification and Details Continued:

HVAC:

- All duct dampers are to be screwed open in areas to be covered. They may vibrate close at a later date and they may not have access.
- To ensure that the furnace or water heater have proper make up air, two (2) 10-inches by 10-inches grills 12-inches down from ceiling and 12-inches up maximum off the floor shall be installed.
- An exhaust fan to the exterior will be required if a bathroom is installed.

Insulation:

- The inspection for the insulation is to make sure that a minimum R-5 insulation is installed on all finished exterior walls.

Final:

- × A final inspection is conducted when the basement remodeling or finishing has been totally completed.
- × All outlets are plug tested.
- × Plumbing fixtures are tested.
- × Showers temperature shall not be hotter than 115-degrees F.
- × Handrails and guards are reviewed.
- × Anything that is unique to the project is checked at this

Building Codes:

The following are the Building Codes, which the City of St. Charles has adopted:

- St. Charles Municipal Code
- 2003 Int'l Building Code w/revisions
- 2003 Int'l Mechanical Code w/revisions
- 2002 Nat'l Electrical Code w/revisions
- 1998 IL State Plbg Code w/revisions
- 2000 Int'l Residential Code/revisions
- Fire Prevention Codes
- 2003 Int'l Fuel Gas Code w/revisions

Homeowner – Contractor Responsibilities:

- ✓ It is the responsibility of the homeowner/contractor to schedule with the Building & Code Enforcement Department the required inspections. The required inspections are indicated on the Plan Review form, which is attached to your permit and the Field Copy of drawings. When calling to schedule an inspection, please have the address and the permit number.
- ✓ Inspections shall be called a minimum of 24 hours before they become due.
